**Creditable**  
Business Scoring

A web-based small business scoring solution for your commercial loan needs.

- Loan size determined by your credit union
- White-labeled and ready for your credit union website, using your logo and branding
- Integration with credit reporting agencies
- Fully customizable at user level
- Modern, secure, cloud-based with MFA
- Automated real-time loan decisions
- Pricing to fit your needs

“

"...We reached out to CBS and told them we were unhappy with our commercial loan vendors. They told us about a platform they were going to create to fix those problems called Creditable Business Scoring. We signed up to be a beta tester and we are beyond impressed. They build the program around what financial institutions actually need. They were very responsive and appreciated all of our feedback. They have built something better than anything else on the market. I highly recommend this software."

– James Coulter, CFO, Bayer Heritage  
Federal Credit Union
